Education

North-Eastern Hill University

Shillong, Meghalaya Bachelor of Science Computer Science Jun 2016 - May 2019

Objective

Passionate about creating impactful web solutions, I bring a strong technical background and a keen eye for design to your team. With hands-on experience in HTML, CSS, JavaScript, and responsive design, I'm eager to contribute to ambitious projects that drive user engagement and satisfaction. My enthusiasm for web development is matched by my commitment to continuous learning and innovation, making me an asset in pushing forward dynamic web experiences.

Work Experience

Client Service Executive

Medusind Solution

June 2022 - Present | Shillong, Meghalaya

- Liaised between insurers and healthcare providers for inquiries, billing, and claims.
- Ensured patient verification for accurate billing.
- Supported claims and billing to enhance reimbursements and satisfaction.

Digital Interaction Advisor

24[7].ai

Nov 2021 - Apr 2022 | Shillong, Meghalaya

- Assisted customers with order issues, product inquiries, and general support.
- Calculated taxes and processed refunds efficiently.
- Resolved concerns quickly to ensure satisfaction.

Projects

E-Commerce Web App

2024

Developed a full-featured e-commerce application with advanced tech stack integrations to enhance user experience and functionality.

- Tech Stack: Built with React.js and Node.js, utilizing Firebase for backend services, Auth0 for authentication, Stripe for payment processing, and TensorFlow for enhanced features.
- Key Features: Includes light/dark theme toggle, voice navigation, real-time data synchronization, and secure payment and user authentication.
- Impact: Improved user experience through modern features, secure transactions, and responsive design.

Netflix Clone

2024

Developed a Netflix-inspired streaming application with React.js, featuring a dynamic, interactive user interface and comprehensive movie-browsing experience.

- Tech Stack: React.js for frontend, Firebase for backend and authentication, TMDB API for movie data, Tailwind CSS for styling, and Swiper.js for carousel effects.
- Key Features: User sign-in and sign-up, personalized "My List" and "Liked Movies" sections, searchable movie catalog, movie detail and profile pages, and movie streaming page.
- Purpose: Built to enhance proficiency in React and API integration, with a focus on delivering a responsive and immersive user experience.

Portfolio Website

2024

Designed and developed a personal portfolio website to showcase projects, resume, and technical skills.

- Tech Stack: Built with React.js, Node.js, Express.js, and styled using React-Bootstrap and custom CSS, hosted on Vercel.
- Key Features: Multi-page layout, responsive design for all devices, and easy-to-customize theme.
- Purpose: Highlights professional projects and skills in a visually appealing, user-friendly format, built to be easily customizable and modular.
